1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 1 recites a dispenser for folded sheets. There is a container body to hold the stack of sheets. There are two interchangeable face plates to partially close the container at one end. The first interchangeable face plate has an elongated dispensing opening to expose a bottom of the stack to, thereby, permit the dispensing of the sheets one-by-one. There is a second interchangeable face plate having an elongated dispensing opening exposing an edge region of the stack to, thereby, permit dispensing of a plurality of the sheets simultaneously... The cited reference to Tuft discloses removable bottom members to dispense various types of folded sheets as single or multi-folded sheets or those having a C-fold. Tuft does not disclose the claimed invention having two interchangeable face plates where one plate would dispense a sheet one-by-one and the other plate dispense a plurality of sheets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
